How to Charge

1. Charge via the USB we provided and you can safely vape while charging.
2. The LED turns red once connected to charger, when fully charged, LED turns blue.

USB Cable

WARNING

If medical advice is needed, have product container or label at hand. Keep out of reach of children.

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Dispose of contents/container to designated place in accordance with local regulations. More detail refer the box package.

Contraindications:

Usage of e-cigarettes and e-liquid is not recommended for:

Pregnant and breast-feeding women

People allergic to any ingredient of the liquid

People suffering from cardiovascular or respiratory diseases, diabetes or using anti-depressants or asthma medication

People younger than 18 years old or non-smokers

Adverse Effects

Nicotine is a toxic substance when inhaled, ingested or in contact with skin. Nicotine may increase heart rate and blood pressure, cause sleepiness, nausea and stomach pains. Inhaling nicotine may reduce efficiency of respiratory system. Direct ingestion may be poisonous. This product contains nicotine which may cause birth defects or reproductive organs damage.

Due to glycerol:

Chances of dehydration are increased in elderly or already dehydrated patients. Caution must be observed in diabetic patients as when metabolised, glycerol may cause slight hyperglycaemia and glycosuria.
